Cloud Platforms: Google Cloud Platform, Amazon Web Services

Databases: MariaDB, Microsoft SQL Server, Oracle Database

Frameworks: Spring Boot, Hibernate, React, Tailwind CSS, Spring Cloud, Quarkus

Technologies: RESTful APIs, Microservices, Docker, Stripe, GitHub Actions, Webhooks, AI/LLM

WORK EXPERIENCE

Software Engineer

Jun 2024 – Present

AD Solutions

Hastings, MI

- Created a CRM integration for 5+ teams, emailing weekly reports to a sales manager, saving 150+ hours/yr.
- Built a payment reconciliation automation with e-automate ERP and the portal, saving accountants 100+ hours/yr.
- Crafted an HR automation syncing candidate data to workflows for 50+ jobs, saving recruiters 40+ hours/yr.
- Extended the billing portal with an onboarding management and tracking automation, onboarding 650+ businesses.
- Added an automatic payment feature to the billing portal, collecting 1k+ payments and enrolling 130+ businesses.
- Automated printer meter reading entries for the company's e-automate ERP, syncing meter data for 12+ printers.
- Added 1k+ tests for the company's billing portal, increasing code coverage to 77% method and 88% class coverage.
- Established CI/CD pipeline for deployments, reducing developer-involved time from 4 hours/mo to 1 minute/mo.
- Created an email delivery integration in the company's billing portal, sending out 3k+ emails to customers.
- Technologies: Java, Spring Boot, RESTful APIs, TypeScript, JavaScript, React, MariaDB, Microsoft SQL Server, Google Cloud Platform, Docker, Hibernate, Quarkus, Stripe, Webhooks, GitHub Actions

Research Assistant

Jan 2026 – May 2026

Ferris State University

Hastings, MI

- Built a Claude-powered student tool providing Socratic-based learning assistance (study, assignment, code reviews) on Amazon Web Services with an IDE plugin in VS Code supporting 400+ file types for 3+ universities.
- Technologies: Java, Spring Boot, RESTful APIs, TypeScript, JavaScript, React, Docker, AI/LLM

Software Engineer Intern

Sep 2023 – May 2024

Kendall College of Art and Design

Grand Rapids, MI

- Built an invoice generator to consolidate and simplify AD Solutions's billing experience, delivering 2.7k+ invoices.
- Integrated the company's e-automate ERP into AD Solutions's billing portal, a Microsoft SQL Server with 1k+ tables.
- Added payment functionality integration with Stripe to AD Solutions's billing portal, processing 2k+ payments.
- Technologies: Java, Spring Boot, Hibernate, RESTful APIs, React, TypeScript, JavaScript, MariaDB, Docker

PROJECTS

Vala JetBrains, Creator/Maintainer (github.com/vala-lang/vala-jetbrains)

May 2025 – Present

- Published an open-source Java-based IDE plugin for JetBrains IDEs, allowing developers to write using one of the most popular programming languages on Linux: the Vala programming language. Downloaded 16k+ times.

Problem Tracker (github.com/tbusk/problem-tracker)

Jul 2026 – Present

- Developed an open-source microservices-based competitive programming tracker using Java, Spring Boot, Spring Cloud, and Oracle Database, designed to record solved problems and generate personalized reports from user activity.

EDUCATION

BSc, Digital Media Software Engineering, Ferris State University

May 2022 – May 2026

GPA: 4.00 / 4.00 (*Summa Cum Laude*)

Awards: 2026 College of Business Excellence Award, Dean's List
