

Trevor Busk

Hastings, Michigan, US

+1 (269) 512-5088 | trevor@tbusk.com | github.com/tbusk | linkedin.com/in/trevor-busk | tbusk.com

SKILLS

Programming Languages: Java, TypeScript, SQL, JavaScript, Python

Technologies: Spring Boot, React, Docker, GitHub, Google Cloud Platform, MariaDB, Microsoft SQL Server, Linux

WORK EXPERIENCE

Software Engineer

Jun 2024 – Present

AD Solutions

Hastings, MI

- Built a payment reconciliation automation between Stripe, an ERP, and the billing portal using Java, webhooks, and MS SQL stored procedures, eliminating up to 3 days per month of manual accounting activity autonomously.
- Built an HR recruiting pipeline automation syncing assessment reports and routing applicants across 50+ job postings using Java, Quarkus, GCP, and webhooks, eliminating up to a day per month of manual HR activity.
- Added 1,000+ tests using Java, JUnit 5, and Mockito, increasing test coverage of the backend by 70%, preventing regression and enabling more confident deployments.
- Built customer-facing wallet pages for payment method management, autopay management, invoice history, and billing insights using Java, Spring Boot, Stripe, TypeScript, and React, serving 650+ businesses.
- Designed and implemented an internal CMS extension to the billing portal using Java, TypeScript, React, and Spring Boot, enabling staff across departments to manage the portal without the development team's involvement.

Research Assistant

Jan 2026 – May 2026

Ferris State University

Hastings, MI

- Built Ferrell, a custom LLM-powered VS Code extension with a TypeScript and React frontend and a Java and Spring Boot backend on AWS, providing students with code reviews, study tools, and socratic mentorship.

Software Engineer

Oct 2025 – Apr 2026

Telic Corporation

Hastings, MI

- Built the foundations of a full-stack international eCommerce platform for personalized children's books using TypeScript, React, Next.js, PayloadCMS, PostgreSQL, and Docker, with i18n support for English and Arabic.

Software Engineer Intern

Sep 2023 – Apr 2024

Kendall College of Art and Design

Grand Rapids, MI

- Developed the backend for a live billing portal using Java, Spring Boot, Spring Security, MariaDB, Stripe, and a massive Microsoft SQL Server ERP (thousands of tables/columns/procedures).
- Created RESTful APIs for 10+ ERP domains (contracts, equipment, invoices, meter readings, service calls, taxes) and Stripe, abstracting a massive MS SQL ERP using endpoints made with Java and Spring Boot for the frontend team.

PROJECTS

Creator, Vala JetBrains (github.com/vala-lang/vala-jetbrains)

May 2025 – Present

- Creator of an open source IDE plugin made with Java for JetBrains IDEs allowing developers to write using the one of the most popular programming languages on Linux: the Vala programming language. Downloaded over 16k times.

Creator, Portfolio (github.com/tbusk/portfolio)

Jan 2026 – Present

- Created an open source multi-theme static portfolio website template using TypeScript, Preact, Tailwind CSS, GitHub Actions, and GitHub Pages to showcase my programming journey.

EDUCATION

BSc, Digital Media Software Engineering, Ferris State University

May 2022 – May 2026

GPA: 4.00 / 4.00 (*Summa Cum Laude*)

Awards: 2026 College of Business Excellence Award, Dean's List
